YOUR 3 CHOICES AND THE 3 KEYS TO GETTING

THE
AFFLUENCE
BLUEPRINT™

I'm a CPA by education but an entrepreneur by exhilaration, entrepreneur and author of the #1 Bestseller, ***The Entrepreneur's Solution: The Modern Millionaire's Path to More Profit, Fans & Freedom***. He's the founder of **Thoughtpreneur™ Academy & Business Breakthrough Academy** where I help entrepreneurs bring their businesses to the world and build the lifestyle that they want.

After finding a cancerous tumor in my bladder larger than a baseball in June 2019 and successfully conquering it within 6 months, I began to openly teach **The Affluence Blueprint™** because my cancer journey spotlighted the immediate and urgent need for entrepreneurs to find “financial liberation” and peace of mind. This is the very process and system I used to build his business and more importantly his wealth through business that allowed me to completely shut things down to focus on what's important. *Most entrepreneurs are building a financial house of cards and don't even realize it...and traditional financial advice will not work for them.*

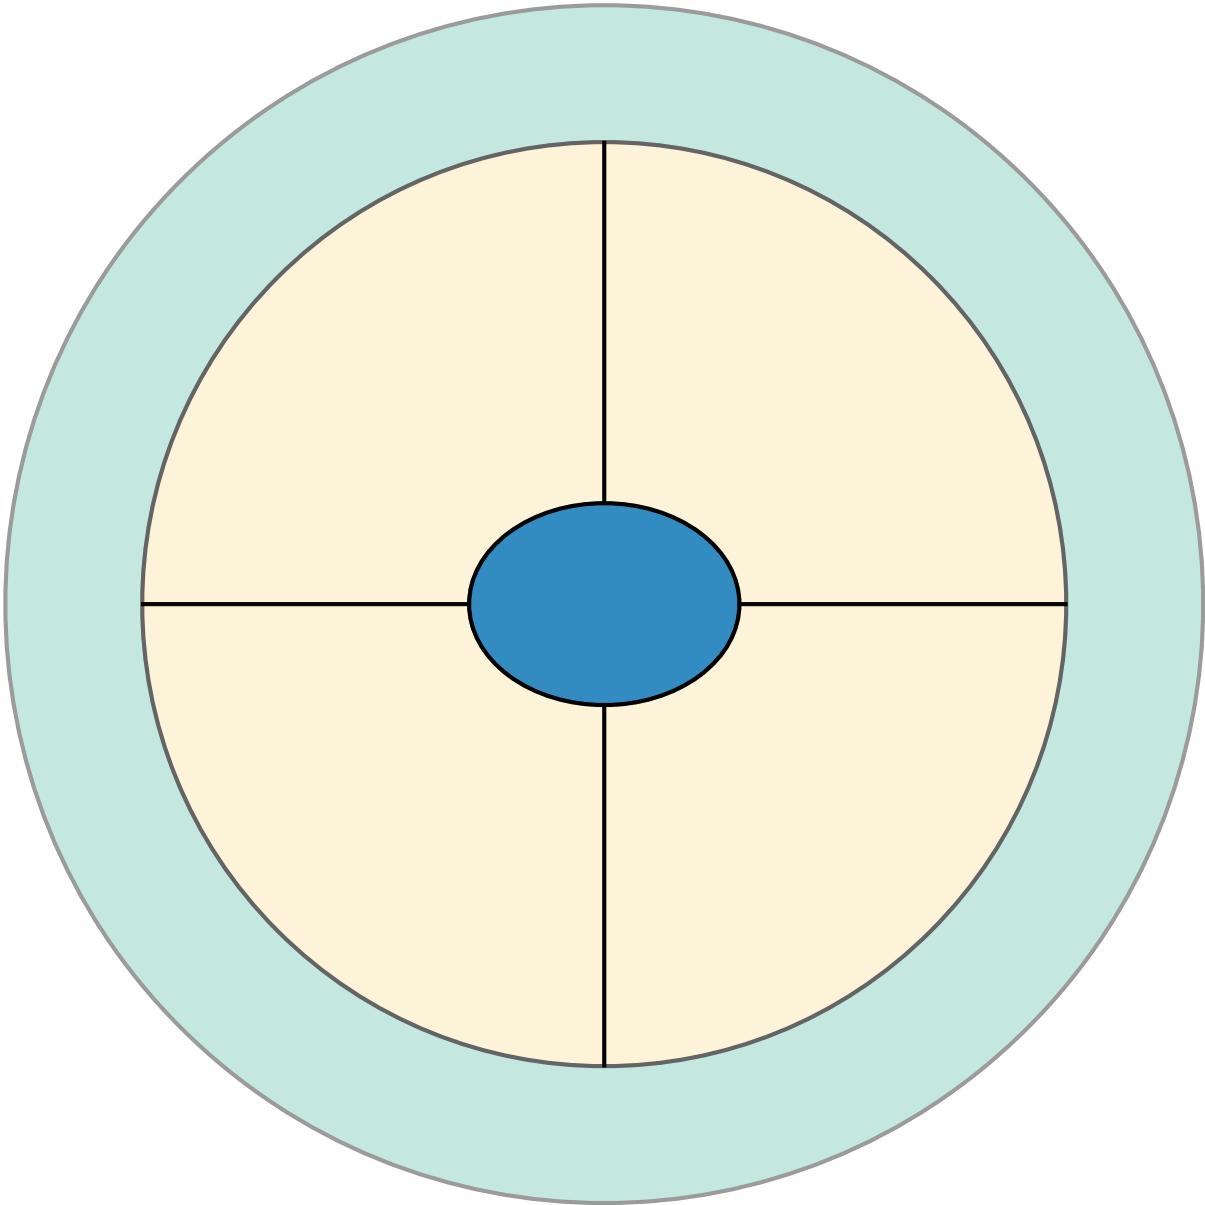

My programs, blog and show I share my thought leadership around building businesses of impact, distinction and freedom. I've been called the “thought leader to thought leaders” and advised some of the top thought leaders of our time in their content creation, positioning and market influence.

Today, one of my superpowers is the art of frameworks, messaging, positioning, and how you can become a thought leader even in the most saturated marketplaces! Behavior change begins with thought change and influencers change people's thinking.
